

## Hold your place online and wait at home with InQuicker

When our ER is treating several higher acuity patients at once, such as those with chest pain or patients arriving by ambulance, the wait time for less emergent patients may be a bit longer than you'd hoped. That's where our new free service called *InQuicker* can help.

When you need emergency care but your symptoms are not severe enough to require immediate attention, *InQuicker* allows you to wait in the comfort of your own home. By visiting [www.MyCCH.com](http://www.MyCCH.com) and selecting your projected treatment time, you can plan your trip to the ER without rushing or waiting at the hospital.

While it sounds a bit unusual to "schedule" an ER visit, it's a convenient way for you to hold your place online while you're arranging for a sitter, if you have to pick up an elderly parent, if you need to wait until after work to come in, or if you live farther away and want to hold your place online while you're on your way to the hospital.

Using *InQuicker*, you should be seen by a healthcare professional within 15 minutes of your designated treatment time. If the ER gets busy wherein your projected treatment time could be delayed, you will be notified by text message, email or phone so you can adjust your schedule. Remember, this service is for minor emergencies only. **Dial 9-1-1 if your condition is life-threatening.**

## More great reasons to choose CCH for emergency care:

- + **Short E.R. Wait Times** - Our average door-to-doctor wait time is less than 30 minutes
- + **E.R. Wait Clock on our website** - You can check the current wait times on our homepage
- + **Smartphone apps** - Our apps for iPhone, Android, and Blackberry have some great tools to help you manage your medical information
- + **Accredited Chest Pain Center** - CCH is accredited by the Society of Chest Pain Centers
- + **Dedicated E.R. Staff** - Board-certified/eligible ER physicians and staff dedicated to an excellent patient experience
- + **TriCare and TriCare Prime are accepted in our ER**
- + **Centrally Located** - Calculating estimated drive time and average wait times, CCH is a timely choice for quality emergency care. Just check out these stats\*:
